Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). However, it does not appear that the figures of the priority document are supportive of this application. Although acknowledgement of applicant's intent to claim foreign priority is noted, it has not been granted or perfected until the translation is received and reviewed by the Examiner.

Specification

The disclosure is objected to because of the following informalities: The first paragraph to the claiming of priority should be removed in view of the proper foreign priority claim. See above.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Rohrbough et al. (WO 97/05912).

Rohrbough et al. disclose

a barrel (13 -see figure 2) having front and rear open ends, a surrounding barrel wall, a rear smaller-diameter wall portion and a rear larger-diameter wall portion , an inner barrel wall surface, a passage and an outer barrel wall surface ;

a needle cannula (10 - see figures 3-4) having a front segment , a tip end and a rear connecting end ;

a needle hub (see figures 3-4) including a front holding portion and a rear shell portion defining a flashback chamber ;

a releasably retaining member comprising a retaining hole 41 , an engaging peg 32 and an actuator 30;

a catheter hub (20- see figure 1) having a sleeve portion defining a duct , a tip portion , a through hole ;

and a tubular catheter (22- see figure 1) having a proximate segment , and a distal segment .

Allowable Subject Matter

Claims 2-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
